ABOUT THIS FONT SET

Play connect-the-dots? Design a new constellation? This font leaves plenty of room for you to be a star as you use it for titles, headlines, or even icons.

HOW IT WORKS

Each box above represents a single [key] on your keyboard. When you have selected this font in your application, pressing the [keys] will insert the letter or symbol you usually expect so typing with it won't drive you

dotty. Upper/lower case alphabet selections will both produce "caps." If a [key] space is blank, that means this font doesn't include a custom version of that character.

ABOUT THIS FONT SET

These welcoming images suggest the open movement of information and ideas. Use them to express your own free-form universe.

HOW IT WORKS

The boxes above represent [keys] on your keyboard. When you have selected this font in your application and then choose a particular letter, number or symbol [key], the icon you see indicated above will appear

instead of the usual character. Note that pressing your upper/lower case [keys] will change which symbol appears, so calculate your orbit with care.

FFH Open Lines

ABOUT THIS FONT SET

So ya want structure! Wait, you want flexibility? Communicate both using this appealing typeface for titles, headlines or illustrations.

HOW IT WORKS

Each box above represents a single [key] on your keyboard. When you have selected this font in your application, pressing the [keys] will insert the letter or symbol you usually expect, so daydream the time away while

you write. Upper/lower case alphabet selections will both produce “caps.” If a [key] space is blank, that means this font doesn’t include a custom version of that character.
